THROUGH A TRESTLE

the M. R. & T.

A Fireman Burned to Death and a Brakeman Injured.

Fifteen Care Burned Up, Eleven of Which Were Loaded With Cetton.

Another of those accidents which seen navoidable, and are sometimes hard to acount for occurred on the M., K. & 1 road, between six and seven o'clock Saturday night, eighteen miles this side of Denison. An extra freight train left that place at 5:10 p. m . bound north, Conductor Harnext in charge, with engine Ro. 54, Nichola engineer, and Mike Keeley freman. When at the point spoken of, and when approaching a treatle 210 feet in length and 17 feet high, the engineer

NOTICED A BLAZE the timbers, but it was too late to stop and he pulled the lever wide open and at tempted to make it across. In this he was portially successful, as the engine reached the opposite side in safety, when there was a crash and the trestle gave way, precipita ting fif een cars into the chasm below. The tender went through the timbers also, but was subsequently pulled out, and thus escaped the wreck. When the crash came, the fireman, Mise Kee'ey, jumped, and was caught in the mass of ruins below, from

which be was UNABLE TO EXTRICATE HIMSELF. The cars had no sooner gone through than they were ignited by the fire from the bridge, and in a short time the entire fitteen, eleven of which were loaded with cotten and four empty, were a smouldering mass of ruine. Keeley, the freman, was burned to death, as it was impossible for

the train men to render him any maistance. The head brakeman, named Louis Abernathy, also went down with the wreck, but managed to escape with but slight injuries. A wrecking train was immediately sent to the scene of the accident, and the debris cleared away as rapidly as possible. AS TO HOW THE TRESTLE CAME TO BE ON

nothing definite is known, but the officials all other linit cuts, citatuents, oils, extracts, seem to think it was the work of an incen- long while ago.
